

**Hey Dresser Babe! Please read carefully over these alteration policies. Signing this contract indicates your agreement to the terms.**

Congratulations on saying YES to the dress! The hardest part is over and it's time to celebrate! Part one is finding your perfect dress...part two is perfect TAILORING to fit your unique frame. Alterations are a vital part of the finishing process so you look and feel fabulous on your special day. Our in-house team wants this to be the best experience possible. We are here to answer any questions or concerns about designs or changes you have in mind.

**x\_\_\_\_\_ “How many appointments are necessary?”**

On average, a bride will have 3 appointments, but for more complicated projects (sample sale gowns/ several sizes too small or too big/ significant design changes or major repair work) we will bring you back as many times as needed to make your dress perfect. Any additional appointments per your request will result in additional charges.

**x\_\_\_\_\_ Additional info:**

- BRING YOUR SHOES! Bring your shoes to every appointment you have. Also, bring any specific undergarments/shapewear you will be wearing on your wedding day.
- Bridal tailoring is a niche and requires a specialized skill set. Your average neighborhood dry clean/tailoring operation is unfamiliar with working on delicate laces, beaded fabrics, multi layered and corseted gowns. Disasters can happen & this is an area where you DEFINITELY get what you pay for. Our expert fitter/designer, Jessica, and our longtime seamstress, Maria, are both professionals who have over 20 years experience in this couture realm.
- Even when a gown is “your size”, YOU WILL STILL NEED ALTERATIONS. Almost every bride needs a hem adjustment , waistline/side seam adjustment, bra cups and bustles. It's extremely rare to have a perfect fit right off the rack.
- Typical bridal alteration cost (to fit) is between \$350-\$900, averaging around \$600.
- In addition to basic fit work, design changes may be requested such as a custom made sleeve, a raised or lowered neckline, appliqués added to veil, etc. These aesthetic changes can add between \$125-\$700 onto basic alterations costs.

## **Alterations DISCLAIMER:**

The choice to alter your dress for a better fit is a personal one. You are not obligated to make changes if you don't think they are necessary. Some changes, however, affect your safety in the dress, like raising a hem to avoid tripping. If you decide to start your alterations journey with The Dresser, we strongly prefer you defer your expertise during the process.

**\* I have read and understand the statements above. I am choosing/want to alter my gown at The Dresser Bridal. \***

Today \_\_\_\_\_ the following alterations plan has been discussed and agreed upon by Jessica Fechner/The Dresser bridal and \_\_\_\_\_. I authorize the alterations to be completed after my appointments.
